

I ADAMANTLY OPPOSE ANY CHANGES TO INDIANA'S "Telephone privacy" laws.  
This proposal is very important to me because of the quality time I now have at home w/o all the anoying calls. I was receiving 5-8 calls a night. I work all day and the last thing I want is to deal with the phone calls.I was also receiving calls early on Sunday mornings! If they have the right to call then I have the right to deny those calls in any way I see fit.The way I choose to do that is through the "Privacy laws".
